

PRECISION CIRCUITS INC

MULTI-PURPOSE SWITCH

The **MULTI-PURPOSE SWITCH PANEL** key feature is a consolidation into one central location, and with one consistent operation, of all the many different types of switch panels normally found in RV's. Simply use the Select button to scroll through a menu of options, and then use the Extend and Retract buttons for operation.

1. Press Select button to choose the desired Function to control. Slide, Awning, Step, etc.
2. Press Extend button to extend the selected Function.
3. Press Retract button to retract the selected Function.
